IMAGE SKINCARE IS GLOBAL!

I *MAGE Skincare is approved and available in the best salons, spas, and physician's offices in over 44 countries all over the world. Check out what some of the most celebrated skin care professionals are saying from across the globe.*

As a beauty therapist and make-up artist it is important to look and feel your best when greeting your clients. This was not the case with me. I was suffering from severe cystic acne along the jawline and onto my neck. I was using a cosmeceutical brand for many years but the results to me were inconsistent as I constantly changed from one product to another to try see results. I thought after trying everything that it was just my body and camouflage was my best option. This was until I tried IMAGE. All I can say is AMAZING. The results were instant, my complexion was brighter and healthier and within a week my acne had a noticeable change in the healing process and now 3 months later not a pimple. IMAGE really is a miracle and I have no hesitations recommending this product to every person I see.

After intensive testing of IMAGE Skincare products I started with big expectations but also with a lot of joy 6 months ago with IMAGE products. This line has convinced me not only by their unparalleled quality and purity but also diversity in their treatments. My personal favourite is: The MAX Serum. Optimal results after a very short time by plant apple stem cell technology. The moisture of the skin is unique and the reduction of mimic wrinkles spectacular. The satisfaction and enthusiasm of my customer has confirmed my decision for IMAGE Skincare.

As a private office for Aesthetic Surgery, specializing in facial rejuvenation with fillers, botox or Thermage as well as in surgical procedures like blepharoplasty, necklift, cheeklift or face-neck-lift we are convinced to combine all these treatments with the superb products of IMAGE to achieve a natural and harmonious result! We introduced IMAGE on the swiss market – and still believe in its success.

IMAGE, well what can I say! Never have I known a product range so fantastic to use, simple to sell, and easy to train staff with! The products, and treatments just make sense. I love IMAGE, and more importantly, so do my clients! Thanks.

Jessica Telfer }

We've been using IMAGE skincare products in our clinic for the past four years. Our clients and I are always very pleased and satisfied with the results. Using IMAGE products makes me feel comfortable and confident. What I love about IMAGE is their wide range of products enabling us to use it on all skin types, to cover the different age groups, and to cover a wide range of skin problems. To conclude, I would like to thank you for giving us a result-driven brand.

Dr Inaam Faiq }
Dubai

Being a Cosmetic Dermatologist is hard. In between managing clinics, making patients happy and a personal life, there is very little 'Me-Time'. That's why I totally love Ageless Total Facial Cleanse !!! It removes impurities, tones and exfoliates my skin for smooth brighter complexion ALL IN LESS THAN 2 MINS.

Dr. Sarah }

Wide selections of IMAGE products, programs, and protocols help physicians provide continuous and total skin health for all. For daily skincare, IMAGE products for acne, hyper-pigmentation, aging, sun damage are highly effective. IMAGE home care products help maintain the results of therapeutic treatments and provide protection from further damage. We are very happy with these comprehensive therapeutic, maintenance, protective and daily skin care solutions.

Dr. Jasmin Manzoor,

I have been very impressed with the feedback, from our patients about IMAGE cosmeceuticals. In particular, teenagers with acne who have used the Clear Cell range, and those with Rosacea, using the Vital C range, have reported significant improvements.

Margaret O'Donnell }

IMAGE skincare products and treatments are the best "skincare revolution" ever. They make all skintypes and conditions to glow and look healthy. I am proud to recommend IMAGE skincare.

Dr. Christoph Martschin }

Atelier Restylane Sweden

I recently had the opportunity to Chair the first GIST (Italian Group for New Technologies) held in Genoa, Italy. The main topic was Regenerative Medicine and the unlimited possibilities being offered by these new therapies. I personally find IMAGE products very useful for pre and post treatments cycles. The Vital C serum which make Vitamin C immediately available and perfectly stable and the Max line offering the best available stem cell based cosmetics are among my favorite.

Dr. Tiziana Lazzari } Certified Plastic Surgeon, Proud Member of US ASLMS and AACIS Italy

The results that I have seen from Vital C hydrating eye recovery gel have been astounding. My clients are specifically requesting this treatment for diminishing dark circles and restoring youthful eyes. They noticed good results including skin texture improved significantly.

All Products are paraben-free, they are not tested on animals, contain no substances from petrochemicals and no preservatives.

Hotel de Rome } Germany

* We provide IMAGE skin care in our clinic. They have the necessary active ingredients that have been well established in order to enhance our skin. There are many cosmeceutical brands available, however we like IMAGE as it is a simple approach and we find it more cost effective for our clients.

Dr. Ahmadi } Dermatologist

Dublin • Ireland

Our clients have noticed a remarkable improvement in their skin and enjoy using the homecare. The range is simple to sell thanks to the colour coding and affordable price point. We like the fact that it is not sold on the internet, therefore our business is not undermined. IMAGE skincare has a wide range of treatments which enables us to treat all skin conditions using the one product line.

Anna Gunning }

Ireland

Working with IMAGE Skincare is fantastic, a high end paramedical range that is achieving outstanding results for us and our clients. My clients love the products and my therapists are excited about working with ingredients that can truly change skin for the better. This range has something for everyone. The support and training we get from the Renaissance team is the best you can get.

Eavanna Breen }

Ireland

We all feel that the IMAGE products have brought an extra dimension to the treatments we can offer clients. Not only have we seen the results ourselves in our own complexions, clients have been delighted with the speed of results and with the compliments they have been paid since starting their new regime. From the day you start to use these products there is an immediate difference. The results speak for themselves.

Julie Wallace }

Ireland

We are having great results with IMAGE Skincare. Clients are commenting on the difference in their skin since they started using it and as a result they now want to try the products. People are delighted with the post treatment results and really feel they have experienced something new.

Yvonne Maher }

Ireland

For every skin IMAGE Skincare offers a customized solution, so even the most sensitive skins can be improved. It is clinically proven that a skin needs to be prepared to obtain professional results. It is important to offer effective products and honest advice to the consumer. The new IMAGE MD-line contains a very high percentage of retinol and can be seen as a medical product. For this reason the treatments and retail products need to be accompanied by professional knowledge. With the IMAGE MD-line you can obtain very impressive results for damaged skin, fine lines and tired looking skin.
